-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of July 29, 1976 (based on reports from exporters for the week ending July 18, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1976/77 (year beginning June 1) advanced by 1.3 million metric tons (MT). Some of the significant increases in commitments were to India, 289,600 MT; the European Community (EC), 149,100 MT; and unknown destinations, 160,100 MT. Total commitments to India and the EC now stand at 1.7 million MT and 948,600 MT, respectively. In addition, commitments to Eastern Europe increased by 127,300 MT while commitments to Ecuador, the Republic of Korea, and Japan were higher by 129,400 MT, 108,400 MT, and 106,600 MT, respectively. Sales to Czechoslovakia, the first reported to that country since the 1973/74 marketing year, accounted for more than two-thirds of this week's total increase in commitments to Eastern Europe destinations.

Total wheat commitments to all destinations for the 1976/77 marketing year now stand at 10.5 million MT, compared with 11.5 million MT for the comparable period a year ago (year beginning June 1, 1975). The total of shipments and forward sales to destinations other than the USSR for the 1976/77 marketing year is 8.9 million MT, about 1.3 million MT behind that of a year ago. This is mainly a reflection of the anticipated decline in foreign demand; commitments to India, for example, are well behind a year ago.

Feedgrains: The apparent export commitment for corn for 1975/76 (year ending September 30) advanced by 431,800 MT, bringing the total commitment for the year to 42.4 million MT. Commitments to the EC advanced by 229,800 MT, accounting for more than one-half of this week's increase. Total corn commitments have increased by 2.6 million MT during the last five weeks, due in large part to a 1.8 million MT increase in the commitment to the EC. Drought conditions in the EC have seriously affected crop prospects and forage supplies resulting in the current surge in demand for feedgrains, especially corn, for animal feed.

Grain sorghum commitments for 1975/76 (year ending September 30) increased by 26,200 MT to total 5.2 million MT. Advances in commitments to Japan and Norway this week totaled 51,900 MT, but were partially offset by a reduction in commitments to unknown destinations of 29,000 MT.

Outstanding sales of corn for 1976/77 shipment (year beginning Oct. 1) increased by 1.3 million, of which 203,200 MT reflects recently announced new sales to the USSR. Advances in sales were reported to Japan, 366,900 MT; unknown destinations, 364,400 MT; and Eastern Europe, 156,000 MT.

Sales to the EC increased by 127,000 MT to total 1.3 million MT, compared with 1.0 million MT for the comparable period last year. For the 1976/77 corn marketing year, corn sales to destinations other than the USSR now total 6.1 million MT, as compared with 3.9 at the same time a year ago.

Barley commitments for 1976/77 shipment (year beginning June 1) advanced by 42,900 MT, largely on the basis of sales to the EC and Iran. Commitments for the year now stand at 152,400 MT, of which commitments to Eastern Europe and the EC account for 36 percent and 14 percent of the total, respectively.

Rice: The apparent export commitment for 1975/76 (year ending July 31) advanced by 16,900 MT, largely on the basis of increased commitments to Saudi Arabia, Syria, and the EC. The total commitment for the year now stands at 1.9 million MT, compared with 2.4 million MT at the comparable period a year ago. Although total rice commitments are slightly ahead of the latest published export estimate, very large shipments will be needed in the remaining two weeks of the 1975/76 marketing year if that estimate is to be reached. Outstanding sales of rice for 1976/77 shipment (year beginning August 1) now total 90,500 MT. This is up 21,600 MT from last week's report, primarily due to new sales to South Africa and the EC.

Soybeans: The apparent export commitment for 1975/76 (year beginning September 1) increased 88,500 MT, with almost all of this increase reflecting larger commitments to the Netherlands, Japan, the Republic of Korea, the Republic of China (Taiwan), and Canada. Commitments to unknown destinations decreased by 22,000 MT.

Exports during the week totaled 161,100 MT, with shipments primarily to Japan (75,000 MT), the Netherlands (52,800 MT), West Germany (23,500 MT), and Norway (8,900 MT).

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 (year beginning October 1) increased 143,300 MT, primarily reflecting larger commitments to Poland, France, Venezuela, Italy, and the Netherlands. Commitments to unknown destinations increased by 34,400 MT.

Exports during the week totaled 106,100 MT, primarily to Poland (36,400 MT), the Netherlands (31,700 MT), Italy (10,600 MT), France (9,400 MT), Japan (6,500 MT), and Canada (6,100 MT).

Cotton: Export sales continued at a good pace as the net export commitment increased 90,000 running bales (RB) for the 1976/77 marketing year (year beginning August 1) and 5,000 RB for the current year. After a long absence, India reentered the U.S. cotton market with purchases of 6,000 RB for delivery this marketing year and 7,000 RB for delivery in 1976/77. Additional sales to India are expected to be reported in coming weeks. Other buyers included Japan, Hong Kong, Bangladesh, and the Republic of China (Taiwan). Exports were again above 70,000 RB after the holiday reduced liftings the previous week.
